SUMMARY

Computer Science and Engineering student with an excellent academic background and practical experience. Highly proficient in Core Java, MYSQL, and JDBC backend development, backed by hands-on exposure through an ongoing Java Full-Stack internship. Eager to contribute technical skills, learn emerging technologies, and grow in a challenging software development environment.

Education

Sri Sairam College of Engineering, Bangalore. BE in Computer Science	Nov 2022 – May 2026
• CGPA: 8.6/10	
Sri Siddaganga PU Science College, Davangere.	May 2020 - APR 2022
• PUC : 91.50 %	
Sri Siddaganga High School, Davangere.	Jun 2019 - May 2020
• SSLC : 81.28 %	

INTERNSHIP

Vstand4U Technologies. Java Full-Stack Development Intern	JAN 2026 – AUG 2026
--	---------------------

TECHNICAL SKILLS

Programming Languages:- Core Java, Python (Basics)

Backend Technologies:- JDBC, Maven, MySQL, Spring boot

Frontend Technologies:- HTML5, CSS3, Java Script, React.js

Core CS Concepts:- DBMS, OOPs, SQL

Developer Tools: GitHub, VSCode, Eclipse IDE

PROJECTS

A Multimodal Approach to Recognize Emotion Using Deep Learning Techniques

Technologies: Python, NLP, Audio Processing, Computer Vision

- Developed an end-to-end multimodal AI system with dedicated processing pipelines to recognize emotions from text, speech, and facial expressions.
- Designed robust data preprocessing and feature extraction workflows to transform and clean multi-source textual, audio, and visual inputs.
- Implemented multi-modal data fusion with automated model evaluation and error analysis to optimize system outputs and prediction accuracy.

College Counselling and Admission Matching System

Technologies: Java, JDBC, MySQL, JSP, Servlets, Maven, HTML5, CSS3, JavaScript

- Built a full-stack College Counselling and Admission Matching System featuring role-based portals for Students and System Admins using Java JSP and Maven.
- Designed a relational MySQL database schema (users, colleges, shortlist, search_history) with JDBC-based CRUD operations, dynamic SQL queries, and stream-specific filtering (Engineering, Medical, Arts).
- Implemented an automated cutoff matching engine, custom modal-based course asset management, per-tab sessionStorage session isolation, and personalized college shortlisting modules.

SOFT SKILLS

Technical Communication • Time Management • Problem Solving • Team Work • Adaptability • Flexibility
